OFFICE OF THE ATTORNEY, D. C.,

WASHINGTON, D. C., *September 8.*

To the Honorable Commissioners, etc., etc.

GENTLEMEN: I return to you herewith a communication from Mrs. Susan J. Peters, suggesting that the School Trustee of the sixth division (Dr. Shadd) refuses to nominate her for a teachership for the year 1891-'2, on the ground that she was illegally upon the rolls of last year, referred to this office for advice on the questions raised by Mrs. Peters.

I see nothing to show that Mrs. Peters was illegally on the rolls last year. She is a Normal School graduate, and has had an experience of seven years as a teacher in the public schools.

In the spring of 1889 she resigned on account of marriage. Shortly afterwards her husband died, and within a year of her resignation she was re-appointed a teacher to fill a vacancy in the corps.

Dr. Shadd, as I understand the case, objects to Mrs. Peters' re-appointment in view of the order of the Commissioners, entered July 25, 1889,

with regard to the appointment of graduates of the Normal Schools of the District to teacherships, which provides that such graduates "must have preference in all cases when appointments of teachers for the public schools are made." His contention is that as long as this order stands it should be observed. The answer to this position, it seems to me, is the fact that after the order was passed Mr. Davis, who was then counsel for the District, interpreted the law, and I think correctly, to mean that graduates of the Normal School were to be given preference in the appointment to teacherships, all other things being equal; thereupon the order was practically abandoned and the opinion of Mr. Davis followed.

On the face of the papers before me I see no legal objection to Mrs. Peters for appointment to a teachership in the public schools.

Very respectfully,
(Signed)

S. T. THOMAS,
Ass't Att'y, D. C.

Official copy furnished Board of Trustees of Public Schools, D. C.
(Signed)

W. TINDALL,
Secretary.

To the Board of Trustees of Public Schools, D. C.

GENTLEMEN: A resolution from Trustee Cornish upon the subject of compensation being paid by applicants for positions as teachers having been referred to this Committee, the Committee beg leave to report that from information received we have reason to believe that cases have occurred where money consideration has been given to teachers to resign at some period prior to the close of the school year that others might receive the appointment.

Your Committee in the most emphatic manner condemn this practice, as detrimental to the best interests of the schools, as calculated to affect the efficiency of the teacher purchasing the place, bring discredit upon the corps of teachers, and work great injustice to those who will not resort to this means of obtaining a position.

Therefore be it resolved, That the resignation of a teacher, brought about by the payment of money to the resigning teacher by a Normal graduate or any other applicant, to obtain the position thus vacated, shall be deemed a violation of the rules of this board, and shall forever disqualify the applicant so offending for appointment as a teacher, and the teacher encouraging the same by receiving compensation shall not be permitted to resign, but shall be dismissed.

Laid over under the rules.

Also the following:

Leave of absence shall not be granted to a teacher for a longer time than three months, and then without pay: *Provided*, That on the recommendation of the local trustee a leave of absence may be renewed or extended for an additional term or terms of months: *Provided further*, That no leave shall be granted to a teacher who seeks such leave to engage in another occupation for pay or profit.

Laid over under the rules.

OFFICE OF THE
COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
WASHINGTON, D. C., *September 14th, 1891.*

Ordered, That the following rules governing the purchase, distribution, and use of free text-books and supplies are hereby adopted :

That the Superintendent of Schools shall, as soon as possible, estimate the number of pupils in each grade who will probably attend the school during the school year beginning September, 1891 ; that he shall, with such number of pupils as a basis of reckoning, determine the number of books of each kind required, as also the quantities of other necessary articles required for the conduct of said schools in said grades, and report the same to the Commissioners.

That when the number of books and the quantities of supplies have been determined, bids shall be invited according to law for furnishing said books and said supplies, the contract to be awarded to the lowest responsible bidder, at the discretion of the Commissioners, according to law.

That books and supplies for free use shall be bought as books and other supplies have been bought for the schools in the past, on the requisition of the Superintendent of Schools, with the approval of the President of the Board of Trustees and of the Commissioners of the District.

That the different Supervising Principals shall make requisition for such books and supplies as may be needed in their schools upon their respective Superintendents, which requisition, upon the approval of the Superintendent in charge, shall be honored by the custodian, a strict account of which shall be kept by the Superintendent.

That each Supervising Principal shall be held responsible for the care and return of all books ordered by him, and shall be held responsible for the economical use of all supplies ordered.

That the Supervising Principals may, in their judgment, issue books and other school supplies for their several schools on the requisition of the teachers thereof, a strict account of which shall be kept by the Supervising Principal.

That the teachers shall be held accountable for the care and return of all books issued to them, and for the proper use of all supplies issued to them.

That a strict account shall be kept by the teacher with each pupil on blanks furnished for the purpose.

That the books are to be for the use of the pupils in the school ; such books, however, may be taken home by the pupil whenever, in the judgment of the teacher, it is thought desirable to grant this privilege for study or for the preparation of lessons. The teacher, however, shall be held accountable to the Supervising Principal for the preservation and return of such books.

That any pupil materially injuring or destroying a book, slate, or other supply shall be made to replace the same or to pay for the same and may be deprived the privilege of school until this requirement is complied with.

That in the case of resignation, withdrawal, or removal of a teacher the Supervising Principal shall make a strict examination of said teacher's school to ascertain if all books and supplies issued to said school are on hand and in proper order, or otherwise properly accounted for, before the pay certificates for the last month preceding such resignation, withdrawal, or removal shall be issued to the teacher.

That at the end of each school year every teacher shall render, in writing, a strict account to the Supervising Principal in charge of all books issued to him or received by him from the teacher preceding him, and the Supervising Principal shall satisfy himself that such accounts are correct, and that the number and condition of books and the quantities and condition of supplies are satisfactory, or that such books and supplies have been satisfactorily accounted for, before the pay certificates for the month preceding the close of the year shall be issued to the teacher.

That the Supervising Principals shall render a strict account to their respective Superintendents of all books and supplies issued to them for the year, before receiving their pay certificates for the last month preceding the close of the year.

That the Superintendents shall, at the close of the year, render to the Commissioners a strict account of all books and other supplies received by them by requisition as well as of such books and supplies on hand at the beginning of the year.
